A little bit of history...

The history of Uroda brand has started before II World War. Its name refers to the timeless qualities that both every woman and man would find in themselves, attractiveness, elegance and grace. First cosmetics on the market in the 30's of the twentieth century under the name of URODA, were skin care products and face powders. At that time promotion of the brand started. First press releases and advertisements were made, making URODA brand recognizable among customers.

Product ads in the 30's

World War II meant that the number of cosmetics was narrowed down to the first need products at that time – soaps. However, just after the War, the brand quickly returned to their high days expanding its portfolio by adding modern cosmetics such as shampoos and deodorants. At that time the company was owned by Warsaw Soap Factory and Cosmetics State Enterprise, which ensured further product development and modern production facilities. In 1958 URODA brand was registered in Polish Patent Office.

In the early 70's URODA brand was overtaken by the Union of Household Industry "Pollena" and from then company name changed into "Pollena-Uroda". In the 70's and 80's Pollena-Uroda was the biggest Polish cosmetic manufacturer. Its products were one of the most trusted brands in Poland. They were exported to approximately 30 countries, gaining immense popularity. The most modern technological solutions and innovative raw materials were used during the production of URODA products. At that time, famous until today lines of cosmetics "Kwiaty Polskie" ("Polish Flowers") and "Melisa" were created. In 1986, a new line Active 90 was developed to celebrate the 90th anniversary of Pollena-URODA. URODA cosmetics were the first products containing natural active ingredients, herbal and fruit extracts and vitamins. The ingredients have been supplied by reputable European companies and have been meeting strict quality control.

URODA Polska company has decided to combine a long and great tradition of the brand with the requirements of modern cosmetics market. New product designs have been adapted to modern trends, but at the same time they are still recognizable to customers emotionally attached to the brand for years. The same product names, new generation active ingredients, modern designs - all of this, to continue the history of the brand URODA not only in Poland but throughout the world.

MAKLER Men Care

PRODUCT CATALOG

MAKLER Men Care

The origins of Makler brand date back to the establishment of the first association of cosmetic plants and factories - The Union of Household Chemical Products Producers, known today as „Pollena”. Since 1971, under the name Pollena-Uroda, the company began to specialize in functional cosmetics.

Makler brand was created in the early 90's. The plans for developing a cosmetics line dedicated exclusively for men had already begun in 1968, when we started the production of aerosol sprays. It was then the most modern technology park. Pollena-Uroda, as the first factory established a branch of monoblock and aerosol products. A bottle of deodorant spray was formed in a second from a small aluminium disk.

Pollena-URODA was also a progenitor to raw materials innovations in Polish cosmetics industry. The Makler brand used foreign fragrance composition according to the latest trends on a global level. High quality, aesthetic packaging and competitive price contributed to gaining a monopoly position on the Polish market.

Makler Series won the gold medal at the International Fair in Poznań, in the spring of 1994. Makler cosmetics won the first, so prestigious award in less than three years since their introduction into the market.

Since July 10, 2009, the Makler perfume brand belongs to the company URODA Polska Sp. z o.o. - currently in the process of changing the packaging and refreshing the image, with a view to a younger client.

Makler Cosmetics have been among the most well-known and respected Polish brands for more than 20 years now. This is a line of fragrance cosmetics for everyday care for men who appreciate tradition and elegance.

The brand includes three unique fragrance lines: ATTRACTION, CELEBRATION, MAGIC NIGHTS. The products have been dermatologically tested. www.urodapolska.eu/Makler
